

True or False: Health Worksheet

Read each statement below and circle true (T) or false (F). If you have time, try to change the statements that are false, so they become true. If a sentence is true, can you give additional information or elaborate?

1. You and your family members should not wait until someone is very sick before going to see a doctor. T F
2. In the United States, all healthcare is provided by the federal government. T F
3. If you don't have insurance or enough money, medical care will not be provided in a life-threatening emergency. T F
4. Employer-provided health insurance always pays for 100% of your healthcare, including dental care. T F
5. When an employee receives health benefits through their place of employment, both the employer and the employee will usually pay percentages of the medical care costs. T F
6. All people in the United States take anti-depressants. T F
7. During the first few months of resettlement you may be able to receive Refugee Medical Assistance or Medicaid. T F
8. If you had a medical examination overseas, you will not need to have another health screening after you arrive in the United States. T F
9. If you are not employed, you may still get health coverage through insurance companies that offer various programs. T F
10. Paying for insurance may seem unnecessary but it could save you a lot of money if you or someone in your family becomes ill. T F
11. Your initial refugee health screening in the U.S. is free of charge. T F
12. Your resettlement agency or friends will definitely not be able to assist you in finding a doctor. T F
